Proprietary Blend:		
Revityalyz 5™	130mg	†
Fo-ti Root, Hyaluronic Acid, Bioflavonoids, Gotu Kola Aerial, Bioperine®		

* Percent Daily Value based on a 2,000 calorie diet.

† Daily Value (DV) not established.

Other Ingredients: Di-calcium phosphate (mineral), modified cellulose, vegetable stearic acid, sodium croscarmellose, sodium copper chlorophyllin, organic rice extract, silicon dioxide and aqueous cellulose coating.

BEAUTIFUL ME™ INGREDIENT BREAKDOWN

Vitamin A - Essential for healthy skin and immune function.

Vitamin C - Also called ascorbic acid, helps to maintain healthy collagen in the skin, repair damaged tissue, promote healthy teeth and bones, and boost the immune system.

Riboflavin - Riboflavin is vital for normal development of body tissues including the skin, eyes, connective tissue, mucous membranes and immune and nervous systems.

Niacin - Niacin supports normal central nervous system function and is important to the health of the skin and helps maintain normal digestive tract function.

B6 (P5P) - P5P is the most active and bio-available form of B6. Skin blemishes are typically caused by a hormone imbalance, which vitamin B6 helps to regulate. Women on hormone-replacement therapy or birth control pills often complain of depression and are frequently deficient in vitamin B6. Supplementation improves these cases, too.

Folate (5-MTHF) - Due to the rise in a genetic malformation (MTHFR) that may affect up to 60% of the population, we use Methylfolate (5-MTHF) in place of Folic Acid. Those who suffer from MTHFR are unable to process folic acid, which needs to be converted to methylfolate. A lack of folate may cause hair loss that ranges from simple hair thinning to patchy hair loss, or even total baldness.

B12 - Helps with premature grey hair and promotes proper nervous system function.

Pantothenic Acid - Helps treat skin conditions like acne and rosacea, and helps promote growth of cells in the hair, skin and nails.

MSM - Promotes healthy hair growth.

DMAE - DMAE promotes healthy skin, by stopping the internal process of arachidonic acid from being produced. Arachidonic acid is a substance that can lead to wrinkles and aging of the skin.

Inositol - Facilitating communication between nerve cells and helps to transport fats throughout the body. It is also said to promote hair growth as well.

Horsetail - Horsetail is high in silicon which is essential for strengthening and growth of hair, skin, and nails.

Alpha Lipoic Acid - An antioxidant that helps promote production of energy and tissue regeneration.

Biotin - Biotin promotes healthy hair growth and protects against dryness. It also increases the elasticity of the hair's cortex preventing breakage and increasing hair volume. Biotin also promotes the metabolism of carbohydrates and fats. Beautiful Me was formulated to have a high amount of biotin, more than most leading Hair, Skin, and Nail brands.

Grape Seed Extract - Improves the elasticity of the skin.

Manufactured for:

Nature's Finest, Mesa AZ

Beautiful Me
ADVANCED COMPLEX Hair · Skin · Nails

**Your Once Daily Way
to Improve Your Hair
Skin and Nails!**

VEGETARIAN & VEGAN FRIENDLY

Dietary Supplement

Experience the Most Powerful Hair, Skin, and Nail Formula!

Results Start Today!

Tremendous results have been achieved for those who have used Beautiful Me! Clients have shared stories of regrown hair, strengthened nails, and rejuvenated skin in just a matter of weeks.

Beautiful Me has core ingredients found in advanced hair, skin and nail supplements, plus a proprietary blend of proven “boost” ingredients known as Revytalyz 5. Our formula gives you over a thousand milligrams of active ingredients in a single Rapid Response Tablet!

Featuring
Revytalyz 5

The Revytalyz 5™ Advantage

Revytalyz 5 is a proprietary blend of key ingredients shown to stimulate the highest levels of hair, skin, and nail growth. The main function of the blend is to replenish the hyaluronic acid and collagen located in the deep dermal layer of your skin. Revytalyz 5 also helps prevent grey hair, heal your skin, and to slow the natural destruction of collagen that comes with aging.
